IN THE AIR

The Germs of La Grippe are Conveyed Through the Atmosphere. No one can escape the La Grippe germ because when an epidemic of the disease is prevailing the air is laden with it.

The first symptoms are those of acute catarrh resembling a hard cold and if prompt treatment is applied at this time, it can easily be broken up; one of the best remedies at this stage is Stuart's Catarrh Tablets, sold by druggists everywhere and if taken freely, say one tablet every hour or two for two or three days, the danger of pneumonia and serious complications will be averted.

Stuart's Catarrh Tablets are composed entirely of harmless antiseptics and may be used as freely as necessary as they contain no cocaine, opiate or poisonous drug of any kind.

Kansas Senator Makes Speech Against Ship Subsidy Bill. BAD CLASS LEGISLATION

Verging on Robbery Is Tenor of His Address.

Washington, March 14.—Throughout the session of the senate today the ship subsidy bill was under consideration. The measure was discussed by Mr. Foraker (Ohio), Mr. McLaughlin (Miss.), and Mr. Harris (Kan.). Mr. Foraker supported the bill, although he admitted that he would have preferred to build up the American merchant marine by the levying of discriminating duties.

Both Mr. McLaughlin and Mr. Harris opposed the measure on the ground that in their judgment it was not constitutional. They maintained that it was class legislation which amounted to little short of robbery of the people for the benefit of a few ship owners.

Mr. Harris declared that under the pending mail contracts and that the price paid by the United States for carrying the mails on the ocean would be at least twice as much as that paid by Great Britain for similar service, and as much as this country would have to pay for foreign vessels for carrying the mails.

The principal objection he had to the proposed mail subsidies, as well as the present subsidies, was that they were too large. He asserted that the United States now was paying the American line twice as much as was paid the Cunard line for carrying nearly twice as much mail matter.

At the conclusion of Mr. Harris' remarks the senate, at 4:30, went into executive session, and at 4:35 adjourned.

ONE FOR SUPREME COURT

Sedgewick County Man Kicks on Paying \$750 for Spunking Neighbor's Boy. Topeka, Kan., March 14.—Has a man a right to chastise a boy who is not his own if the said boy stampedes his cattle? This question the supreme court has been called upon to decide. William Shinn has appealed such a case from Sedgewick county where it was decided against him and Daniel Spohn, the plaintiff, awarded a verdict of \$750. The case arose over the action of Ernest Spohn, the son of Daniel Spohn. It is claimed that while Shinn was driving a herd of cattle along the road young Spohn came and scared the cattle that they were stampeded. Shinn seized the boy and belabored him so severely that he was laid to follow cattle. When the case came on for trial, the jury found for Shinn and awarded him \$750 and in the trial in the district court of Sedgewick county he received a verdict of \$750. Even this was too much for him, so he appealed the case. He claims that the boy had been guilty of the same offense many times before and that such actions were past endurance.

TOO HARD CITY FOR KANSANS

Goodman City Man Thus Explains the Small Real Estate Industry. Topeka, March 14.—The labor question is retarding the growth of the best sugar industry in western Kansas," said Judge W. E. Hutchinson, of Goodman City, here today. "It has been the case since the sugar beet can be produced in the Arkansas valley in western Kansas at a profit. The soil is all right, there is plenty of water and the climate is just what is needed for the raising of the beet. It is a great risk to raise sugar beets. It keeps one man on his knees practically all the summer to each acre of beets. It is the hardest kind of work. Our people are not used to working so hard and we do not know where to go to get people who will."

HOME MADE ONE WON'T DO

Department Decides Rural Mail Patrons Must Have Regulation Box. Morrisville, Kan., March 14.—A few days ago Postmaster Hammond received word from the postoffice department to discontinue sending mail out on the rural route to patrons who had not complied with the ruling of the department, which states that each patron must provide himself with one of the regulation mail boxes. A wealthy patron on a Morrisville route contended that he was not compelled by the ruling of the department to have a mail box in a home-made box. Since Postmaster Hammond received instructions from the department he has refused to send out any more mail in the parties until they purchase a regulation box.

FOOTBALL CALLED OFF

Faculty of Ottawa University Won't Allow Inter-Collegiate Games. Ottawa, Kan., March 14.—Just on the eve of completing a schedule for the year, the Ottawa football management was notified today that there would be no football at Ottawa university this year. This came in the form of a resolution passed last night by the faculty, recommending to the board of trustees that the football be discontinued in the institution. The board of trustees do not meet until June and that is too late to make a schedule, besides that board is almost sure to affirm the decision of the faculty.

AN EVENTFUL DAY

When Coffee Left the Household. "I never began to use coffee until after I began teaching school, then a good, motherly old dame served such nice coffee that she got me into the way of drinking it." "Inside of a year I became a wreck from indigestion and nervous prostration. Every afternoon I was so drowsy and filled with apprehension that I would have crying spells without knowing why. "I laid around the house in misery, and was a misery to every one else. One in a while a friend would tell me that coffee was the cause of my trouble. I reasoned with them that I only had one cup at breakfast, and that was not enough to cause the trouble, but I found that that was the secret—that one cup of coffee. "It was an eventful day in our household when I quit coffee and started making Postum. I followed the directions and the result was wonderful; no other words express it. The Postum Coffee was of a rich, beautiful color, and when cream was added looked as delicious as I tasted. "A doctor who was in the house tasted the Postum and said it was equal to the best Mocha or Java, then quickly turned away as though it was inconceivable. He suspected there was coffee in it but he has been assured of the absolute purity of the Postum and have confidence in it. "Nothing ever tasted better to me than that first, well-made cup of Postum, and never since have I tasted coffee, and I now look back with horror upon the sickness it caused. We began, very quickly, to see the difference between my condition under Postum and under common coffee. I lost that feeling of despair and restlessness which oppressed me every afternoon and I began to sleep like a baby. Postum must be given the credit for all my improvement. "A word about tea also. One time when I was visiting I had a package of Postum with me. I gave out and before I could get another I had tea for breakfast. Within a few days the old sickness feeling that coffee used to give me came back, and all through the house I went about feeling that I must stop it. I felt that I must stop it. I felt that I must stop it. "I'm glad to come back, but I wouldn't tell the tea and get all right again." Name given by Postum Co., Battle Creek, Mich. Postum is an absolutely pure product of the cereals as analyzed by some of the best chemists in America and passed upon by the various pure food commissions of the different states.

NEWSBOY BURNED UP

Fire in New York brings Suffering to Many. DAY OF FIERY TERROR

Flames Visit Ohio, Montana and Other States.

New York, March 14.—Fire that destroyed the postoffice building at North Platte, man today, caused the loss of one life and the serious injury of a third person. The dead: EDWARD YOCUM, 13 years old, a newsboy.

Mrs. Yocum, the mother of the boy who was killed, jumped from a window and had her back badly wrenched, but was not otherwise injured.

The building was a three-story, frame structure. All the contents of the building were destroyed, including the registered letters in the postoffice and all other mail matter. The total loss is estimated at \$20,000.

\$50,000 LOSS AT CLEVELAND

Cleveland, O., March 14.—Fire early today practically destroyed the five-story brick building occupied by the Randall Mattress company. Loss, \$50,000. THE DEADLY GRIP

MAKES ITS YEARLY APPEARANCE AND CLAIMS MANY VICTIMS. An Immense Amount of Suffering from This Cause—A Few Hints on How to Guard Against It and Its More Dreadful After-Effects.

With each recurring epidemic of the grip it becomes more evident that it leaves in its wake a train of stubborn ailments that often hamper the skill of physicians. Loss of flesh, thin blood, nervousness, shortness of breath, exhaustion after slight exertion—so that it is often difficult to walk up stairs—these are a few of the symptoms of after-effects of the grip. More serious results often follow and have come to be regarded as the highest form of pneumonia, bronchitis and even consumption.

Miss Nellie Hathaway, a winsome girl of fifteen living at No. 120 Portage street, Kalamazoo, Mich., was one of the many who were afflicted with grip last winter. The disease left her all run-down and her blood in a very impure condition. Her case is a good example of the after-effects of the grip.

"It was taken with the grip in March," she says, "and when I got over that it left me in a very poor physical condition. I was weak all over, and had no ambition to do anything and when I stood up or tried to walk I became so dizzy that I had to give it up. I spent most of my time on a couch for about a month. I had no appetite and nothing that I did found myself to eat tasted good. Then I began to feel better and my blood began to become more and more pure and I knew my blood was in an awfully bad condition. We had a doctor but he did me no good at all that we could see, so my mother thought she would doctor me herself. My sister, Frankie, had taken Dr. Williams' Pink Pills for Pale People for anemia and they cured her so I began taking them. I took about two boxes when I began to feel better and I used about eight boxes in all. Now I feel all right and well. I am strong and healthy. We have recommended Dr. Williams' Pink Pills for Pale People to many of our friends and they have taken them with good results."

These pills have become famous all over the world for their wonderful effect on the blood. Acting directly on the nerves and blood, they are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, vertigo, neuralgia, rheumatism, nervous headache, the after-effects of the grip, of fever and of other acute diseases, palpitation of the heart, pale and sallow complexion and all forms of weakness, either in male or female. Dr. Williams' Pink Pills for Pale People are sold by all druggists, or will be sent postpaid on receipt of price, fifty cents a box or six boxes for two dollars and fifty cents (they are never sold in bulk or by the hundred) by addressing Dr. Williams' Medicine Company, Schenectady, N. Y. These pills are not a purgative and contain nothing which could induce the most delicate system.

are more favorable to the enterprise than the laws of many other states. The original articles of incorporation of the National Railroad company were filed here on February 23, but the fact has not been given out until the present time. The articles filed today are an amendment to the original articles, which fixed the capital stock at \$10,000,000. Among railroad officials in this city it is believed that the best road medicine for children as it is entitled in its title is backed by the Harriman interests.

A Good Cough Medicine for Children

Chamberlain's Cough Remedy," says F. P. Moran, a well known and popular baker of Petersburg, Va.
